

Children  
OF  
Legend

BY ARTIST PETE NEONAKIS

Pete Neonakis in Greece, 2023

“This project breaths new life into timeless legacies while inviting viewers to see the convergence of art and music in a way that sparks both familiarity and wonder.”

~ Pete Neonakis

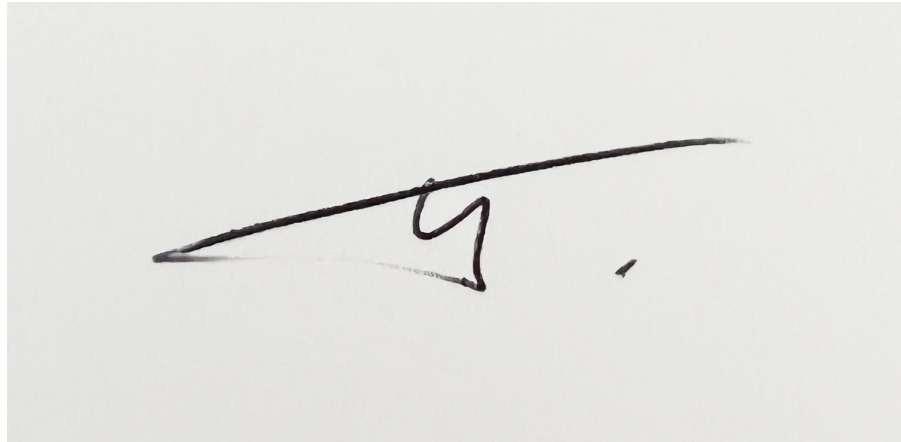

*Children of Legend* follows the artistic journey of Pete Neonakis, an imaginative and multi-talented artist based in Miami. As a graphic designer with a passion for music of all kinds, Pete embarks on unique project harnessing the power of digital technology to reimagine renowned musical icons as children, capturing their innocence while preserving the essence of their adult personas.

Pete’s creations expand beyond conventional artistic limitations to draw inspiration of from the world’s rich musical and artistic history. Merging technological ingenuity with artistic vision, Pete’s reinterpretations of iconic figures provide not only a novel viewpoint of their character but also evoke feelings of nostalgia and inquisitiveness. This unique methodology effectively connects multiple generations of music lovers in a way that is at once historical and in the current moment.

Celebrating the fusion of art, music and technology, *Children of Legend* invites audiences to reconsider the past, appreciate the present and contemplate the endless possibilities of artistic expression.

*Children of Legend* is of course rooted in the popular definition of the word “legend” itself—a person who is admired and famously associated with a body of work in a particular area, and the stories related to their dedication to their life’s pursuit.

From this starting point, Pete Neonakis emerges as a visionary artist who entwines the realms of creativity and innovation to craft a truly mesmerizing experience for art and music lovers of all generations.

# The Highlands Art Collective

The Highlands Art Collective is an Artist Representative group. We are not a gallery. We offer established artists and emerging talent representation and support to promote their work, generate online awareness, obtain gallery exposure, secure commissions and other opportunities to help the artists be more recognized and desired.
